- **Exports of goods** (excluding diamonds) totaled NIS 16.1 billion. 33% of total exports were to European Countries, 33% were to American Countries, 20% were to Asian Countries and 14% were to the "Other Countries"¹.
- **Imports of goods** (excluding diamonds) totaled NIS 26.5 billion. 47% of the imports were from European Countries, 33% were from Asian Countries, 11% were from American Countries and 9% were from the "Other Countries".
- The **trade deficit of goods** (excluding diamonds) totaled NIS 10.4 billion.

Trend data² in September - November 2025:

- Exports of goods to **European union** increased by 22.3%.
- Imports of goods from **China** decreased by 19.0%.

¹ The above is based on temporary data regarding goods that cleared customs, not including trade between Israel and the Palestinian Authority. In addition, the data do not include imports and exports of services (e.g. software). Data on all exports and imports of goods and services are published as part of the Balance of Payments, every quarter. 2025 data are provisional. Final data for 2025 will be released April 2026.

² The seasonally adjusted data are calculated by adjusting the original data for the influence of seasonality and festival and trading day effects. Trend data are estimated by removing the irregular influences (noise) from the seasonally adjusted data.

The seasonally adjusted data and the trend are subject to revisions as they are calculated anew, each month or quarter, on the basis of original data that include an additional observation (concurrent season adjustment).
